This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

PRESIDENTS OF THE GEOLOGICAL SOCIETY.

	Presidential Address.
1868–69. Professor T. H. Huxley, LL.D., F.R.S.	19 Feb. 1869, 25. j. xxviii.
	18 Feb. 1870, 26. j. xxix.
1870–71. Joseph Prestwich, F.R.S.	17 Feb. 1871, 27. j. xxx.
	16 Feb. 1872, 28. j. xxix.
1872–73. Duke of Argyll, K.T., D.C.L., F.R.S.	21 Feb. 1873, 29. j. xxx.
	20 Feb. 1874, 30. j. xxxiv.
1873–74. John Evans, F.R.S.	19 Feb. 1875, 31. j. xxxvii.

SUPPLEMENT TO

AN INDEX

TO

THE TRANSACTIONS, PROCEEDINGS,

AND

QUARTERLY JOURNAL OF THE GEOLOGICAL SOCIETY

FROM 1869 TO 1875 INCLUSIVE.

Explanation of References.

j. Journal. jm. Miscellaneous Part of the Journal.

[A. Recent and Postpliocene.]

(*For Glacial Action and Bone-Caverns, see* Section B.)

Argyll, Duke of. On six Lake-basins in Argyllshire. 29. j. 508.

Bauerman, H. Note on a Geological Reconnaissance made in Arabia Petræa, in the Spring of 1868. 25. j. 17.

Blanford, W. T. On the Nature and Probable Origin of the Superficial Deposits in the Valleys and Deserts of Central Persia. 29. j. 493.

Bleasdell, Rev. W. Observations on Modern Glacial Action in Canada. 26. j. 669.

——. On Modern Glacial Action in Canada. 28. j. 392.

Brown, R. On the Physics of Arctic Ice as Explanatory of the Glacial Remains in Scotland. 26. j. 671.

Busk, G. On the Animal Remains found by Col. Lane Fox in the High- and Low-terrace Gravels of Acton and Turnham Green. 28. j. 465.

Codrington, T. On the Superficial Deposits of the South of Hampshire and the Isle of Wight. 26. j. 528.

Cotta, B. von. On the Geology of the Altaï Mountains. 25. jm. 12.

Daintree, R. Notes on the Geology of the Colony of Queensland. 28. j. 271.

Dakyns, J. R. On the Glacial Phenomena of the Yorkshire Uplands. 28. j. 382.

Darbishire, R. D. Note on a Deposit of Middle Pleistocene Gravel, in the Warden Hall Pits, near Leyland, Lancashire; and on a Collection of Shells and Fragments of Shells found there by Miss M. H. Ffarington. 30. j. 38.

Dawkins, W. B. On the Distribution of the British Post-glacial Mammals. 25. j. 192.

——. On the Cervidæ of the Forest-bed of Norfolk and Suffolk. 28. j. 405.

——. The Classification of the Pleistocene Strata of Britain and the Continent by means of the Mammalia. 28. j. 410.

Dawson, G. M. On the Superficial Geology of the Central Region of North America. 31. j. 603.

De Rance, C. E. On the Post-glacial Deposits of Western Lancashire and Cheshire. 26. j. 655.

Drew, F. Alluvial and Lacustrine Deposits and Glacial Records of the Upper-Indus Basin. 29. j. 441.

Du Noyer, G. V. On Flint Flakes from Carrickfergus and Larne. 25. j. 48.
Flower, J. W. On the Distribution of Flint Implements in the Drift, with reference to some recent Discoveries in Norfolk and Suffolk. 25. j. 272. 449.
Foster, C. Le Neve. On the Caratal Gold Field. 25. j. 336.
Fox, Col. A. Lane. On the Discovery of Palæolithic Implements in Association with *Elephas primigenius* in the Gravel of the Thames Valley at Acton. 28. j. 449.
Gaudry, Prof. A. On the Mammalia of the Drift of Paris and its Outskirts. 28. j. 491.
Grantham, R. B. A description of the "Broads" of East Norfolk, showing their Origin, Position, and Formation in the Valleys of the Rivers Bure, Yare, and Waveney. 25. j. 258.
Harmer, F. W., and Searles V. Wood, jun. On a peculiar instance of Intra-glacial Erosion near Norwich. 25. j. 259, 445.
Hawkshaw, J. C. Notes on the Peat and Underlying Beds observed in the Construction of the Albert Dock, Hull. 27. j. 237.
Helmersen, G. von. Marine Shells found in the Sands of the Desert of the Kara-kum. 25. jm. 8.
Hochstetter, Prof. F. von. On the Geology of Roumelia. 26. jm. 1.
Hull, Prof. E. On the Permian Breccias and Boulder-beds of Armagh. 29. j. 402.
Hutton, Capt. F. W. Synopsis of the Younger Formations of New Zealand. 29. j. 372.
Jones, Prof. T. Rupert, and W. K. Parker. On the Foraminifera of the family *Rotalinæ* (Carpenter) found in the Cretaceous Formations, with notes on their Tertiary and Recent Representatives. 28. j. 103.
Kingsmill, F. W. Notes on the Geology of China, with more especial reference to the Provinces of the Lower Yangtse. 25. j. 119.
——. The probable Origin of Deposits of "Loess" in North China and Eastern Asia. 27. j. 376.
Liversidge, A. Notes on the Bingera Diamond Field, with notes on the Mudgee Diamond Field. 31. j. 489.
Lloyd, T. G. B. On the Superficial Deposits of Portions of the Avon and Severn Valleys and adjoining Districts. 26. j. 202.
Mackintosh, D. On the Correlation, Nature, and Origin of the Drifts of North West Lancashire, and a part of Cumberland, with Remarks upon Denudation. 25. j. 407.
——. On a Sea-coast Section of Boulder-clay in Cheshire. 28. j. 388.
——. Observations on the more remarkable Boulders of the North-west of England and the Welsh Borders. 29. j. 351.
Martins, M. C. On the Existence during the Quaternary Period of a Glacier of the Second Order occupying the "Cirque" of the Valley of Pallhères, in the Western part of the Granitic "Massif" of the Lozère. 25. j. 46.
Maw, G. Notes on the Geology of the Plains of Morocco and the Great Atlas. 28. j. 85.
Mojsisovics, Dr. E., and Dr. W. Schlœnbach. On the Flysch of the Northern Margin of the Calcareous Alps between the Lakes of Traun and Laudach, (Upper Austria). 25. jm. 2.
Parker, W. K., and Prof. T. Rupert Jones. On the Foraminifera of the family *Rotalinæ* (Carpenter) found in the Cretaceous Formations, with notes on their Tertiary and Recent representatives. 28. j. 103.
Prestwich, J. On the presence of a raised Beach on Portsdown Hill, near Portsmouth, and on the occurrence of a Flint Implement on a high level at Downton. 28. j. 38.
——. On the Phenomena of the Quaternary period in the Isle of Portland and around Weymouth. 31. j. 29.
Rattray, A. Notes on the Geology of Cape York Peninsula, Australia. 25. j. 297.
Reade, T. M. The Drift-beds of the North-west of England. Part I. Shells of the Lancashire and Cheshire low-level Boulder-clay and Sands. 30. j. 27.

Rogers, A. On the Geology of the Country surrounding the Gulf of Cambay. 25. j. 441; 26. j. 118.
Sawkins, J. G. Geological observations on British Guiana. 27. j. 419.
Schlœnbach, Dr. W. and Dr. E. Mojsisovics. On the Flysch of the Northern Margin of the Calcareous Alps between the Lakes of Traun and Laudach Upper Austria. 25. jm. 2.
Shaw, Dr. J. On the Geology of the Diamond Fields of South Africa. 28. j. 21.
Shone, W. Discovery of Foraminifera, &c., in the Boulder-clays of Cheshire. 30. j. 181.
Stoliczka, Dr. F. Geological observations made on a visit to the Chaderkul, Thian-Shan range. 30. j. 574.
Stur, D. On the Mollusca of the Brick-earth of Baden, Austria. 28. jm. 3.
Tylor, A. On Quaternary Gravels. 25. j. 57.
Wallbridge, T. C. On the Geology and Mineralogy of the County of Hastings, Canada West. 25. j. 261.
Wilson, J. M. On the Surface-deposits in the neighbourhood of Rugby. 26. j. 192.
Wood, Searles V., Jun. On the Evidence afforded by the Detrital Beds without and within the North-eastern part of the Valley of the Weald as to the Mode and Date of the Denudation of the Valley. 27. j. 3.
——. Note on the Shells from the Lower Boulder-clay of Dawpool. 28. j. 392.
——, and F. W. Harmer. On a peculiar instance of Intraglacial Erosion near Norwich. 25. j. 259, 445.

[B. Pliocene.]

Blanford, W. T. On the Nature and Probable Origin of the Superficial Deposits in the Valleys and Deserts of Central Persia. 29. j. 493.
Bonney, Rev. T. G. On the Formation of "Cirques" and their bearing upon Theories attributing the Excavation of Alpine Valleys mainly to the Action of Glaciers. 27. j. 312.
——. Notes on the Upper Engadine, and the Italian Valleys of Monte Rosa, and their relation to the Glacial-erosion Theory of Lake Basins. 30. j. 479.
Brown, R. On the Physics of Arctic Ice, as Explanatory of the Glacial Remains in Scotland. 26. j. 671.
Busk, G. On the Species of Rhinoceros whose Remains were found in a Fissure-cavern at Oreston in 1816. 26. j. 457.
——, and Rev. J. M. Mello. On some Bone-caves in Creswell Crags. 31. j. 679.
Campbell, J. F. On the Glaciation of Ireland. 29. j. 198.
——. Notes on the Glacial Phenomena of the Hebrides. 29. j. 545.
——. About Polar Glaciation, &c. 30. j. 450.
Codrington, T. On the Superficial Deposits of the South of Hampshire and the Isle of Wight. 26. j. 528.
Dakyns, J. R. On the Glacial Phenomena of the Yorkshire Uplands. 28. j. 382.
Dawkins, W. Boyd. On the Discovery of the Glutton (*Gulo luscus*) in Britain. 27. j. 406.
——. The Mammalia found at Windy Knoll. 31. j. 246.
Dawson, G. M. On the Superficial Geology of the Central Region of North America. 31. j. 603.
De Rance, C. E. On the Glacial Phenomena of Western Lancashire and Cheshire. 26. j. 641.
Drayson, Lieut.-Col. On the probable Cause, Date, and Duration of the Glacial Epoch of Geology. 27. j. 232.
Drew, F. Alluvial and Lacustrine Deposits and Glacial Records of the Upper-Indus Basin. 29. j. 441.

Duncan, P. M. On *Caryophyllia Bredai*, Milne-Edwards and Jules Haime, from the Red Crag of Woodbridge. 29. j. 503.
——. On *Trochocyathus anglicus*, a new species of Madreporaria from the Red Crag. 28. j. 447.
Etheridge, R., Jun. On the Lignite Deposit of Lal-Lal, Victoria, Australia. 29. j. 565.
Geikie, J. On the Glacial Phenomena of the Long Island, or Outer Hebrides. 29. j. 532.
Goodchild, J. G. On the Glacial Phenomena of the Eden Valley and the Western Part of the Yorkshire Dale District. 31. j. 565.
Green, A. H. Notes on the Geology of part of the County of Donegal. 27. j. 449.
Gunn, Rev. J. On the relative position of the Forest-bed and the Chillesford Clay in Norfolk and Suffolk; and on the real position of the Forest-bed. 26. j. 551.
Harkness, Prof. R. On the Distribution of Wastdale-Crag Blocks, "Shap Fell Granite Boulders," in Westmoreland. 26. j. 517.
Jamieson, T. F. On the Last Stage of the Glacial Period in North Britain. 30. j. 317.
Judd, J. W. The Secondary Rocks of Scotland. First Paper. 29. j. 97.
Kerr, J. H. Observations on Ice-marks in Newfoundland. 26. j. 704.
Kingsmill, T. W. Notes on the Geology of China, with more especial reference to the Provinces of the Lower Yangtse. 25. j. 119.
Liversidge, A. Notes on the Bingera Diamond-Field, with Notes on the Mudgee Diamond-Field. 31. j. 489.
Lloyd, T. G. B. On the Superficial Deposits of Portions of the Avon and Severn Valleys and adjoining Districts. 26. j. 202.
Mackintosh, D. On the Correlation, Nature, and Origin of the Drifts of North-west Lancashire and a part of Cumberland, with Remarks on Denudation. 25. j. 407.
——. On the Traces of a Great Ice-sheet in the Southern Part of the Lake-district and in North Wales. 30. j. 174.
——. Additional Remarks on Boulders, with a particular reference to a Group of very large and far-travelled Erratics in Llanarmon Parish, Denbighshire. 30. j. 711.
——. On some important Facts connected with the Boulders and Drifts of the Eden Valley, and their bearing on the Theory of a Melting Ice-sheet charged throughout with Rock-fragments. 31. j. 692.
Mello, Rev. J. M., and Prof. G. Busk. On some Bone-caves in Creswell Crags. 31. j. 679.
Mottura, T. F. S. On the Sulphuriferous Tertiaries of Sicily. 28. jm. 10.
Pennington, R. On the Bone-caves in the neighbourhood of Castleton, Derbyshire. 31. j. 238.
Prestwich, J. On the Structure of the Crag-beds of Suffolk and Norfolk, with some Observations on their Organic Remains.
Part I. Coralline Crag of Suffolk. 27. j. 115.
Part II. Red Crag of Essex and Suffolk. 27. j. 325.
Part III. The Norwich Crag and Westleton Beds. 26. j. 281; 27. j. 452.
Sanford, W. A. Rodentia of the Somerset Caves. 25. j. 444; 26. j. 124.
Tiddeman, R. H. On the Evidence for the Ice-sheet in North Lancashire and adjacent parts of Yorkshire and Westmoreland. 28. j. 471.
Tylor, A. On the Formation of Deltas; and on the Evidence and Cause of Great Changes in the Sea-Leve during the Glacial Period. 25. j. 7.
Ward, J. C. The Glaciation of the Northern part of the Lake-district. 29. j. 422.
——. The Origin of some of the Lake-basins of Cumberland. 30. j. 96.
——. The Glaciation of the Southern part of the Lake-district and the Glacial Origin of the Lake-basins of Cumberland and Westmoreland. Second Paper. 31. j. 152.

Whitaker, W. On the Occurrence of Thanet Beds and of Crag at Sudbury Suffolk. 30. j. 401.
Wilson, J. M. On the Surface-deposits in the Neighbourhood of Rugby. 26. j. 192.
Wood, Searles V., Jun. On the Relation of the Boulder-clay without Chalk, of the North of England, to the Great Chalky Boulder-clay of the South. 26. j. 90.
——. On the Evidence afforded by the Detrital Beds without and within the North-eastern part of the Valley of the Weald as to the Mode and Date of the Denudation of that Valley. 27. j. 3.

[C. Miocene.]

Ansted, Prof. D. T. On Solfataras and Deposits of Sulphur at Kalamaki, near the Isthmus of Corinth. 29. j. 360.
Baily, W. H. Notice of Plant-remains from beds interstratified with the Basalt in the County of Antrim. 25. j. 162, 357.
Bauerman, H. Note on a Geological Reconnaissance made in Arabia Petræa in the Spring of 1868. 25. j. 17.
Beor, E. J. On the Lignite Mines of Podernuovo, near Volterra. 25. j. 260.
D'Orueta, D. M. Further Notes on the Geology of the Neighbourhood of Malaga. 28. j. 148, 492.
Duncan, P. M. On the Anatomy of the Test of *Amphidetus* (*Echinocardium*) *virginianus*, Forbes; and on the Genus *Breynia*. 25. j. 16.
——, Prof. P. M. On some Fossil Alcyonaria from the Australian Tertiary Deposits. 31. j. 673.
Eichwald, Prof. E. von. Geology of the Aleutian Islands. 28. jm. 7.
Etheridge, R. Description of a new genus of fossil Scutelloid Echinoderm from Saffe, N. Africa. 28. j. 97.
Etheridge, R., Jun. Note on the Lignite Deposit of Lal-Lal, Victoria, Australia. 29. j. 565.
Ettingshausen, Prof. C. von. On the Older Brown-coal Flora of the Wetterau (N.W. Germany). 25. jm. 4.
Heer, O. On the Fossil Flora of the Arctic Regions. 25. jm. 11.
Hochstetter, Prof. E. On the Geology of Roumelia. 26. jm. 1.
Holden, J. S., and R. Tate. On the Iron-ores associated with the Basalts of the North-east of Ireland. 26. j. 151.
Manzoni, A. Monte Titano, its Fossils, State, and Mode of Origin. 29. jm. 1.
Maw, G. Notes on the Geology of the Plain of Morocco and the Great Atlas. 28. j. 85.
Mottura, T. F. S. On the Sulphuriferous Tertiaries of Sicily. 28. jm 10.
Murchison, Sir R. I. Note comparing the Geological Structure of North-western Siberia with that of Russia in Europe. 25. j. 1.
Peters, Prof. C. On the Occurrence of *Dinotherium* in Styria. 28. jm. 4.
Ruschhaupt, F. On the Salt-mines of St. Domingo. 25. j. 256.
Suess, Prof. E. On the Geological Structure of the Italian Peninsula. 28. jm. 8.
Tate, R. Notes on the Geology of Guyana, in Venezuela. 25. j. 343.
—— and J. S. Holden. On the Iron-ores associated with the Basalts of the North-east of Ireland. 26. j. 151.
Zigno, Baron A. de. Remains of *Sirenia* found in Venetia. 29. jm. 5.

[D. Eocene.]

Bauerman, H. Note on a Geological Reconnaissance made in Arabia Petræa in the Spring of 1868. 25. j. 17.

Bauerman, H., and C. Le Neve Foster. On the occurrence of Celestine in the Nummulitic Limestone of Egypt. 25. j. 40.
Carruthers, W. On the Structure of a Fern-stem from the Lower Eocene of Herne Bay, and on its Allies, Recent and Fossil. 26. j. 349.
Duncan, Prof. P. M. On the Older Tertiary Formations of the West-Indian Islands. 29. j. 548.
——. On some Fossil Alcyonaria from the Tertiary Deposits of New Zealand. 31. j. 675.
——. On some Fossil Corals from the Tasmanian Tertiary Deposits. 31. j. 677.
Foster, C. Le Neve, and H. Bauerman. On the occurrence of Celestine in the Nummulitic Limestone of Egypt. 25. j. 40.
Fuchs, T. Mollusca of the Upper Tertiaries of the Vicentine. 25. jm. 9.
Hochstetter, Prof. F. von. On the Geology of Roumelia. 26. jm. 1.
Jones, Prof. T. Rupert, and C. C. King. On some newly exposed Sections of the "Woolwich and Reading Beds" at Reading, Berks. 31. j. 451.
King, C. C., and Prof. T. Rupert Jones. On some newly exposed Sections of the "Woolwich and Reading Beds" at Reading, Berks. 31. j. 451.
Meyer, C. J. A. On Lower Tertiary Deposits recently exposed at Portsmouth. 27. j. 74.
Milne, J. Geological Notes on the Sinaitic Peninsula and North-western Arabia. 31. j. 1.
Mojsisovics, Dr. E., and Dr. W. Schlœnbach. On the Flysch of the Northern Margin of the Calcareous Alps between the Lakes of Traun and Laudach (Upper Austria). 25. jm. 2.
Mottura, T. F. S. On the Sulphuriferous Tertiaries of Sicily. 28. jm. 10.
Neumayr, Dr. M., and Dr. G. Stache. On the Cliff-Limestone (Klippenkalk) of the Northern Carpathian Range. 25. jm. 7.
Owen, Prof. R. On Fossil Evidences of a Sirenian Mammal (*Eotherium ægyptiacum*, Owen) from the Nummulitic Eocene of the Mokattam Cliffs near Cairo. 31. j. 100.
——. Description of the Skull of a Dentigerous Bird (*Odontopteryx toliapicus*, Owen) from the London Clay of Sheppey. 29. j. 511.
Schloenbach, Dr. W., and Dr. E. Mojsisovics. On the Flysch of the Northern Margin of the Calcareous Alps between the Lakes of Traun and Laudach (Upper Austria). 25. jm. 2.
Seeley, Prof. H. G. On the Tibia of *Megalornis*, a Large Struthious Bird from the London Clay. 30. j. 708.
Stache, Dr. G., and Dr. M. Neumayr. On the Cliff-Limestone (Klippenkalk) of the Northern Carpathian Range. 25. jm. 7.
Stiffe, Lieut. A. W. On the Mud-craters and Geological structure of the Mekran Coast. 30. j. 50.
Stur, D. On a Palm from the Brown-coal of Eibiswald in Styria. 25. jm. 4.
Waters, A. W. Remarks on Fossils from Oberburg, Styria. 30. j. 339.
Whitaker, W. On the Cliff-sections of the Tertiary Beds West of Dieppe in Normandy, and of Newhaven in Sussex. 27. j. 264.
——. On the Occurrence of Thanet Beds and of Crag at Sudbury, Suffolk. 30. j. 401.
Woodward, H. Notes on some New Crustaceans from the Lower Eocene of Portsmouth. 27. j. 90.
——. Further Notes on Eocene Crustacea from Portsmouth. 29. j. 25.

[II. Tertiary.]

D'Orueta, D. M. On some points in the Geology of the neighbourhood of Malaga. 27. j. 109.
Duncan, Prof. P. M. On the Fossil Corals (*Madreporaria*) of the Australian Tertiary Deposits. 26. j. 284.

Duncan, Prof. P. M. The Physical Geography of Western Europe during the Mesozoic and Cainozoic periods elucidated by their Coral-faunas. 26. j. 51.
Etheridge, R., Jun. Description of a new Species of the Genus *Hemipatagus*, Desor, from the Tertiary Rocks of Victoria, Australia, with Notes on some previously described Species from South Australia. 31. j. 444.
Ettingshausen, Prof. C. von. The Tertiary Flora of Radoboj. 26. jm. 13.
——. On the Flora of the Brown-coal of Sagor, Carniola. 27. jm. 4.
Hood, T. H. C. Geological Observations on the Waipara River, New Zealand. 26. j. 409.
Hutton, Capt. F. W. Description of Nga Tutura, an Extinct Volcano in New Zealand. 25. j. 13.
——. Synopsis of the Younger Formations of New Zealand. 29. j. 372.

Suess, Prof. E. On the Structure of the Spiral Shell of Cephalopods. 26. jm. 11.
Tate, R. On the Palæontology of Skye and Raasay. 29. j. 339.
——. On the Lias about Radstock. 31. j. 493.
Tawney, E. On the Occurrence of *Terebratula diphya* in the Alps of the Canton de Vaud. 25. j. 305.
Tylor, A. On Quaternary Gravels. 25. j. 57.
Waagen, Dr. W. On Ammonites. 26. jm. 3.
Wiltshire, Rev. T. On the Red Chalk of Hunstanton. 25. j. 185.

6.

Pisces.

Dawson, J. W. Note on some new Animal Remains from the Carboniferous and Devonian of Canada. 26. j. 166.
Egerton, Sir P. de M. G. On two new Species of *Gyrodus*. 25. j. 379.
——. On a new Chimæroid fish from the Lias of Lyme Regis (*Ischyodus orthorhinus*, ♂). 27. j. 275.
——. On two specimens of *Ischyodus* from the Lias of Lyme Regis. (Paper withdrawn.) 28. j. 237.
——. On *Platysiagum sclerocephalum* (Egerton) and *Palæospinax priscus* (Egerton). 29. j. 419.
Hancock, A., and R. Howse. On *Dorypterus Hoffmanni*, Germar, from the Marl-slate of Midderidge, Durham. 26. j. 623.
Howse, R., and A. Hancock. On *Dorypterus Hoffmanni*, Germar, from the Marl-slate of Midderidge, Durham. 26. j. 623.
Manzoni, A. Monte Titano, its fossils, state, and mode of origin. 29. jm. 1.
Miall, L. C. On the Composition and Structure of the Bony Palate of *Ctenodus*. 30. j. 772.
——. On the Structure of the Skull of *Rhizodus*. 31. j. 624.
Moore, C. Australian Mesozoic Geology and Palæontology. 26. j. 1, 226.
Tietze, Dr. E. On the Fauna of the Culm and Carbonaceous Limestone of Lower Silesia. 26. jm. 13.
Willemoes-Suhm, Dr. von. On *Cœlacanthus*. 26. jm. 12.

7.

Reptilia.

Blake, Rev. J. F. On the Infralias in Yorkshire. 28. j. 132.
Bunzel, Dr. E. Notice of a Fragment of a Reptilian Skull from the Upper Cretaceous of Grünbach. 26. j. 394.
Dawson, J. W. Note on some new Animal Remains from the Carboniferous and Devonian of Canada. 26. j. 166.
Grey, G. Remarks on some specimens from South Africa. 27. j. 49.
Hancock, A., and R. Howse. On a new Labyrinthodont Amphibian from the Magnesian Limestone of Midderidge, Durham. 26. j. 556.
——, ——. On *Proterosaurus Speneri*, von Meyer, and a new Species, *Proterosaurus Huxleyi* from the Marl-slate of Midderidge, Durham. 26. j. 565.
Hood, T. H. C. Geological observations on the Waipara River, New Zealand. 26. j. 409.
Howse, R., and A. Hancock. On a new Labyrinthodont Amphibian from the Magnesian Limestone of Midderidge, Durham. 26. j. 556.
——, ——. On *Proterosaurus Speneri*, von Meyer, and a new Species, *Proterosaurus Huxleyi* from the Marl-slate of Midderidge, Durham. 26. j. 565.
Hulke, J. W. Note on a large Saurian Humerus from the Kimmeridge Clay on the Dorset Coast. 25. j. 386.
——. Notes on some Fossil Remains of a Gavial-like Saurian from Kimmeridge Bay, collected by J. C. Mansel, Esq., establishing its identity with Cuvier's Deuxième Gavial d'Honfleur, Tête à Museau plus court (*Steneosaurus rostrominor* of Geoffroy St.-Hilaire, 1825), and with Quenstedt's *Dakosaurus*. 25. j. 390.
——. Note on a Crocodilian Skull from Kimmeridge Bay, Dorset. 26. j. 167.
——. Note on some Teeth associated with two fragments of Jaw from Kimmeridge Bay. 26. j. 172.
——. On a new and undescribed Wealden Vertebra. 26. j. 318.
——. Note on some Plesiosaurian Remains obtained by J. C. Mansel, Esq., in Kimmeridge Bay, Dorset. 26. j. 611.

Hulke, J. W. Note on some Reptilian Fossils from Gozo. 27. j. 29.
——. Note on a large Reptilian Skull from Brooke, Isle of Wight, probably Dinosaurian, and referable to the genus *Iguanodon*. 27. j. 199.
——. Note on an *Ichthyosaurus* (*I. enthekiodon*) from Kimmeridge Bay, Dorset. 27. j. 440.
——. Note on a Fragment of a Teleosaurian Snout from Kimmeridge Bay, Dorset. 27. j. 442.
——. Note on some Ichthyosaurian Remains from Kimmeridge Bay, Dorset. 28. j. 34.
——. Appendix to a "Note on a new and undescribed Wealden Vertebra," read Feb. 9, 1870, and published in the 'Quarterly Journal' of that year. 28. j. 36.
——. Contribution to the Anatomy of *Hypsilophodon Foxii*. 29. j. 522.
——. Note on a very large Saurian Limb-bone adapted for progression upon Land. from the Kimmeridge Clay of Weymouth, Dorset. 30. j. 16.
——. Supplementary Note on the Anatomy of *Hypsilophodon Foxii*. 30. j. 18.
——. Note on the Astragalus of *Iguanodon Mantelli*. 30. j. 24.
——. Note on a Reptilian Tibia and Humerus (probably of *Hylæosaurus*) from the Wealden formation of the Isle of Wight. 30. j. 516.
——. Note on a Modified form of Dinosaurian Ilium, hitherto reputed Scapula. 30. j. 521.
Huxley, T. H. On *Hyperodapedon*. 25. j. 138.
——. On a new Labyrinthodont from Bradford. 25. j. 309.
——. On the Upper Jaw of *Megalosaurus*. 25. j. 311.
——. On *Hypsilophodon Foxii*, a new Dinosaurian from the Wealden of the Isle of Wight. 26. j. 3.
——. Further evidence of the Affinity between the Dinosaurian Reptiles and Birds. 26. j. 12.
——. On the Classification of the Dinosauria, with Observations on the Dinosauria of the Trias. 26. j. 32.
——. On *Stagonolepis Robertsoni*, and on the Evolution of the Crocodilia. 31. j. 423.
Mason, J. Wood. On *Dakosaurus* from the Kimmeridge Clay, Shotover Hill. 25. j. 15; 218.
——. On a new Acrodont Saurian from the Lower Chalk. 25. j. 442.
Miall, L. C. Note on the Locality of a new Labyrinthodont from Bradford. 25. j. 310.
——. On the Remains of *Labyrinthodon* from the Keuper Sandstone of Warwick, preserved in the Warwick Museum. 30. j. 417.
——. On the occurrence of a Labyrinthodont in the Yoredale Rocks of Wensleydale. 30. j. 775.
Peters, Prof. C. On Chelonia from Eibiswald, Styria. 25. jm. 13.
Seeley, H. G. On *Cetarthrosaurus Walkeri* (Seeley), an Ichthyosaurian from the Cambridge Greensand. 29. j. 505.
——. On *Muræenosaurus Leedsii*, a Plesiosaurian from the Oxford Clay (Part I.). 30. j. 197.
——. Note on some of the Generic Modifications of the Plesiosaurian Pectoral Arch. 30. j. 436.
——. On the Base of a large Lacertian Cranium from the Potton Sands, presumably Dinosaurian. 30. j. 690.
——. On Cervical and Dorsal Vertebræ of *Crocodilus cantabrigiensis* (Seeley) from the Cambridge Upper Greensand. 30. j. 693.
——. On the Pectoral Arch and Fore Limb of *Ophthalmosaurus*, a new Ichthyosaurian Genus from the Oxford Clay. 30. j. 696.
——. On the Femur of *Cryptosaurus eumerus* (Seeley), a Dinosaur from the Oxford Clay of Great Gransden. 31. j. 149.
——. Note on *Pelobatochelys Blakii* and other Vertebrate Fossils exhibited by the Rev. J. F. Blake, in illustration of his paper on the Kimmeridge Clay. 31. j. 234.

Seeley, H. G. On the Axis of a Dinosaur from the Wealden of Brook in the Isle of Wight, probably referable to the Iguanodon. 31. j. 461.
——. On an Ornithosaurian (*Doratorhynchus validus*) from the Purbeck Limestone of Langton, near Swanage. 31. j. 465.
——. On the Maxillary Bone of a new Dinosaur (*Priodontognathus Phillipsii*), contained in the Woodwardian Museum of the University of Cambridge. 31. j. 439.
Stow, G. W. Geological Notes on Griqualand West. 29. j. 407.
Whitaker, W. On the Succession of beds in the "New Red" on the South Coast of Devon, and on the Locality of a new specimen of *Hyperodapedon*. 25. j. 152.
Wiltshire, Rev. T. On the Red Chalk of Hunstanton. 25. j. 185.
Woodward, H. New facts bearing on the inquiry concerning forms intermediate between Birds and Reptiles. 30. j. 8.

8.

Aves.

Huxley, Prof. T. H. Further evidence of the Affinity between the Dinosaurian Reptiles and Birds. 26. j. 12.
Owen, Prof. R. Description of the Skull of a Dentigerous Bird (*Odontopteryx toliapicus*, Ow.) from the London Clay of Sheppey. 29. j. 511.
Seeley, Prof. H. G. On the Tibia of *Megalornis*, a large Struthious bird from the London Clay. 30. j. 708.
Woodward, H. New facts bearing on the inquiry concerning forms intermediate between Birds and Reptiles. 30. j. 8.

9.

Mammalia.

Busk, G. On the Species of Rhinoceros whose remains were found in a fissure-cavern at Oreston in 1816. 26. j. 457.
——. On the Animal-remains found by Col. A. Lane Fox in the High- and Low-terrace Gravels at Acton and Turnham Green. 28. j. 465.
——. On some Bone-caves in Creswell Crags 31. j. 679
Caruana, Dr. A. A. Further discovery of the Fossil Elephants of Malta. 26. j. 434.
Dawkins, W. B. On the Distribution of the British Post-glacial Mammalia. 25. j. 192.
——. On the Discovery of the Glutton (*Gulo luscus*) in Britain. 27. j. 406.
——. On the Cervidæ of the Forest-bed of Norfolk and Suffolk. 28. j. 405.
——. The Classification of the Pleistocene Strata of Britain and the Continent by means of the Mammalia. 28. j. 410.
——. The Mammalia found at Windy Knoll. 31. j. 246.
Flower, W. H. Description of the Skull of a species of *Halitherium* (*H. Canhami*) from the Red Crag of Suffolk. 30. j. 1.
Fox, Col. A. Lane. On the Discovery of Palæolithic Implements in association with *Elephas primigenius* in the Gravels of the Thames Valley at Acton. 28. j. 449.
Gaudry, Prof. A. On the Mammalia of the Drift of Paris and its outskirts. 28. j. 491.
Krefft, Dr. G. On Australian Fossil Remains. 26. j. 415.
——. Remarks on the working of the Molar Teeth of the Diprotodons. 31. j. 317.
Lankester, E. R. Contributions to a knowledge of the Newer Tertiaries of Suffolk and their Fauna. 26. j. 493.
Owen, Prof. R. On Fossil remains of Mammals found in China. 26. j. 417.

Owen, Prof. R. On Fossil Evidences of a Sirenian Mammal (*Eotherium ægyptiacum*, Owen) from the Nummulitic Eocene of the Mokattam Cliffs, near Cairo. 31. j. 100.
——. On *Prorastomus sirenoides* (Owen), Part II. 31. j. 559.
Peters, Prof. C. On the occurrence of *Dinotherium* in Styria. 28. jm. 4.
Sanford, W. A. Rodentia of the Somerset Caves. 25. j. 444; 26. j. 124.
Stur, D. On the occurrence of *Anthracotherium* in Styria. 28. jm. 3.
Zigno, Baron A. de. Remains of Sirenia found in Venetia. 29. jm. 5.

QUARTERLY JOURNAL. (Vols. III. to XXXI. inclusive)

Price to Fellows, 12s. 6d. each (Vols. XV., XXIII., and XXX. 10s. 6d.), or gratis.

CLASSIFIED INDEX TO THE TRANSACTIONS, JOURNAL, &c., by G. W. Ormerod, Esq. New Edition, to the end of 1858. Price 4s. 6d. Fellows, 2s. 6d. [Postage 5d.]

A SUPPLEMENT TO THIS INDEX, including publications from 1859 to the end of 1875. Price 1s. 6d. To Fellows, 1s. [Postage 1d.]

GEOLOGICAL MAP OF ENGLAND AND WALES, in 6 Sheets, by G. B. Greenough, Esq. New and Revised Edition. Price to Fellows, in sheets, £1 2s. Single sheets may be purchased at the following prices:—No. 1, 4s. 6d.; No. 2, 3s. 6d.; No. 3, 10s. 6d.; No. 4, 8s.; No. 5, 12s.; No. 6, 7s. 6d.

LIBRARY CATALOGUES.

First Supplementary Catalogue, 1850	Price to Fellows	2s. 6d.
Alphabetical Second Supplementary Catalogue, 1860	,,	2s. 6d.
Third Supplementary Catalogue, 1882	,,	2s. 6d.

THE GEOLOGY OF NEW ZEALAND,

Translated by Dr. C. F. FISCHER, from the works of MM. HOCHSTETTER and PETERMANN. With an Atlas of Six Maps.

Fellows may purchase one copy of this book at Two Shillings; additional copies will be charged Four Shillings.

SECOND SUPPLEMENT

TO THE SECOND EDITION

OF A

CLASSIFIED INDEX

TO THE

TRANSACTIONS, PROCEEDINGS,

AND

QUARTERLY JOURNAL

OF

THE GEOLOGICAL SOCIETY OF LONDON:

INCLUDING ALL THE

MEMOIRS AND NOTICES FROM 1876 TO 1882 INCLUSIVE.

BY

GEORGE WARING ORMEROD, Esq., A.M., F.G.S.

LONDON:

[PRINTED BY TAYLOR AND FRANCIS, RED LION COURT, FLEET STREET.]

SOLD AT

THE APARTMENTS OF THE SOCIETY AT BURLINGTON HOUSE.

MDCCCLXXXIII.

SECOND SUPPLEMENT

TO THE SECOND EDITION

OF A

CLASSIFIED INDEX

TO THE

TRANSACTIONS, PROCEEDINGS,

AND

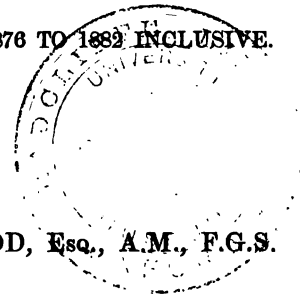
QUARTERLY JOURNAL

OF

THE GEOLOGICAL SOCIETY OF LONDON:

INCLUDING ALL THE

MEMOIRS AND NOTICES FROM 1876 TO 1882 INCLUSIVE.



BY

GEORGE WAREING ORMEROD, Esq., A.M., F.G.S.

LONDON:

PRINTED BY TAYLOR AND FRANCIS, RED LION COURT, FLEET STREET;

SOLD AT

THE APARTMENTS OF THE SOCIETY AT BURLINGTON HOUSE.

MDCCCLXXXIII.

PRINTED BY TAYLOR AND FRANCIS,
RED LION COURT, FLEET STREET.

ADVERTISEMENT

TO THE

SECOND SUPPLEMENT TO THE SECOND EDITION.

THE same general arrangement has been here followed which was used in the "First Supplement." The "Oligocene Formation" has been included under the head of "Eocene," and "Pebidian" and other "Pre-Cambrian Strata" under that of "Metamorphic Rocks."

G. W. O.

Woodway, Teignmouth,
December 1882.

——. On Annelid Jaws from the Wenlock and Ludlow Formations of the West of England. 36. j. 368.

Jeffreys, J. G. On the Occurrence of Marine Shells of existing Species at different Heights above the present Level of the Sea. 36. j. 351.
Jones, T. R., and J. W. Kirkby. Description of the Species of the Ostracodous Genus *Bairdia*, M'Coy, from the Carboniferous Strata of Great Britain. 35. j. 565.
Moore, C. On abnormal Geological Deposits in the Bristol District. 37. j. 67.
Vine, G. R. Notes on the Annelida Tubicola of the Wenlock Shales from the Washings of Mr. G. Maw, F.G.S. 38. j. 377.
Woodward, H. On some New Macrurous Crustacea from the Kimmeridge Clay of the Sub-Wealden boring, Sussex, and from Boulogne-sur-mer. 32. j. 47.
——. On a new Fossil Crab from the Tertiary of New Zealand, collected by Dr. Hector. 32. j. 51.
——. On the Discovery of a Scorpion in the British Coal-measures. 32. j. 57.
——. On a Remarkable Fossil Orthopterous Insect from the Coal-measures of Scotland. 32. j. 60.
——. On the Occurrence of *Branchipus* (or *Chirocephalus*) in a Fossil State, associated with *Eosphæroma* and with numerous Insect-remains, in the Eocene Freshwater (Bembridge) Limestone of Gurnet Bay, Isle of Wight. 35. j. 342.
——. Contributions to the Knowledge of Fossil Crustacea. 35. j. 549.

5.

Mollusca.

Bryozoa, Brachiopoda, Rudistes, Monomyaria, Dimyaria, Pteropoda, Gasteropoda, Cephalopoda.

Adams, A. Leith. On Gigantic Land-Tortoises and a small Freshwater Species from the Ossiferous Caverns of Malta, together with a List of their Fossil Fauna; and a Note on Chelonian Remains from the Rock-cavities of Gibraltar. 33. j. 177.
Andrews, Rev. W. R. Note on the Purbeck beds of the Vale of Wardour. 37. j. 248.
Buckman, J. The Cephalopoda-beds of Gloucester, Dorset, and Somerset. 33. j. 1.
——. On the Terminations of some Ammonites from the Inferior Oolite of Dorset and Somerset. 37. j. 57.
Buckman, S. S. A descriptive Catalogue of some of the Species of Ammonites from the Inferior Oolite of Dorset. 37. j. 588.
Downes, Rev. W. The Zones of the Blackdown beds, and their Correlation with those at Haldon, with a List of the Fossils. 38. j. 75.
Etheridge, R. Appendix to paper by C. B. Brown on the Tertiary Deposits on the Solimões and Javary Rivers in Brazil. 35. j. 82.
——. Palæontology of the Coasts of the Arctic Lands visited by the late British Expedition under Capt. Sir G. Nares. 34. j. 568.
——. On a new Species of *Trigonia* from the Purbeck beds of the Vale of Wardour. 37. j. 246.
Etheridge, R., jun. On an Adherent form of *Productus* and a small *Spiriferina* from the Lower Carboniferous Limestone Group of the East of Scotland. 32. j. 454.
——. On our present Knowledge of the Invertebrate Faunas of the Lower Carboniferous, or Calciferous Sandstone Series of the Edinburgh Neighbourhood, especially of that Division known as the Wardie Shales; and on the First Appearance of certain Species in these beds. 34. j. 1.
——. Further Remarks on Adherent Carboniferous Productidæ. 34. j. 498.
Gardner, J. S. On British Cretaceous Patellidæ, and other Families of Patelloid Gasteropoda. 33. j. 192.
——. On the Cretaceous Dentaliidæ. 34. j. 56.

Godwin-Austen, Lieut.-Col. H. H. On a Fossil Species of *Camptoceras*, a fresh-water Mollusk from the Eocene of Sheerness-on-Sea. 38. j. 218.
Guppy, R. J. L. On the Miocene Fossils of Haiti. 32. j. 516.
Hicks, H. Fossiliferous Cambrian Shales near Caernarvon (Appendix.) 32. j. 135.
Jeffreys, J. G. On the Occurrence of Marine Shells of Existing Species at different Heights above the present Level of the Sea. 36. j. 351.
Jones, T. R. Note on the Foraminifera and other Organisms in the Chalk of the Hebrides. 34. j. 739.
Kirkby, J. W. On the Zones of Marine Fossils in the Calciferous Sandstone Series of Fife. 36. j. 559.
Longe, F. D. On some Specimens of *Diastopora* and *Stomatopora* from the Wenlock Limestone. 37. j. 239 P.
Moore, C. On Abnormal Geological Deposits in the Bristol District. 37. j. 67.
Shone, W. On the Glacial Deposits of West Cheshire, together with Lists of the Fauna found in the Drift of Cheshire and adjoining Counties. 34. j. 383.
Shrubsole, G. W. A Review of the British Carboniferous Fenestellidæ. 35. j. 275.
——. A Review and Description of the various Species of British Upper-Silurian Fenestellidæ. 36. j. 241.
——. Further Notes on the Carboniferous Fenestellidæ. 37. j. 178.
——. *Thamniscus*; Permian, Carboniferous, and Silurian. 38. j. 341.
——. On the Occurrence of a new Species of *Phyllopora* in the Permian Limestone. 38. j. 347.
——, and G. R. Vine. The Silurian Species of *Glauconome*, and a suggested Classification of the Palæozoic Polyzoa. 38. j. 245 P.
Tate, R. On New Species of *Belemnites* and *Salenia* from the Middle Tertiaries of South Australia. 33. j. 256.
Twelvetrees, W. H. On Organic Remains from the Upper Permian Strata of Kargalinsk, in Eastern Russia. 38. j. 490.
Vine, G. R. A Review of the Family Diastoporidæ, for the purpose of Classification. 36. j. 356.
——. Further Notes on the Family Diastoporidæ; Busk. Species from the Lias and Oolite. 37. j. 381.
——. Silurian Uniserial *Stomatoporæ* and *Ascodictya*. 37. j. 613.
——. Notes on the Polyzoa of the Wenlock Shales, Wenlock Limestone, and Shales over Wenlock Limestone. 38. j. 44.
——, and G. W. Shrubsole. The Silurian Species of *Glauconome*, and a suggested Classification of the Palæozoic Polyzoa. 38. j. 245 P.
Waters, A. W. On Fossil Chilostomatous Bryozoa from South-western Victoria, Australia 37. j. 309.
——. On Chilostomatous Bryozoa from Bairnsdale, Gippsland. 38. j. 502.
——. On Fossil Chilostomatous Bryozoa from Mount Gambier, South Australia. 38. j. 257.
Wood, Searles V. On New Occurrences of Species of Mollusca from the Upper Tertiaries of the East of England. 33. j. 119.

6.

Pisces.

Davis, J. W. On a Bone-bed in the Lower Coal-measures, with an Enumeration of the Fish-remains of which it is principally composed. 32. j. 332.
——. Notes on *Pleurodus affinis*, sp. ined., Agassiz, and Description of three Species of Cestracionts, from the Lower Coal-measures. 35. j. 181.
——. On the Fish-remains found in the Cannel Coal in the Middle Coal-measures of the West Riding of Yorkshire, with the Descriptions of some new Species. 36. j. 56.
——. On the Genus *Pleuracanthus*, Agass., including the Genera *Orthacanthus*, Agass. & Goldf., *Diplodus*, Agass., and *Xenacanthus*, Beyr. 36. j. 321.

Davis, J. W. Notes on the Fish-remains of the Bone-bed at Aust, near Bristol, with the Description of some new Genera and Species. 37. j. 414.
——. On *Anodontacanthus*, a new Genus of Fossil Fishes from the Coal-measures, with Descriptions of three new Species. 37. j. 427.
——. On the Fossil Fish-remains from the Armagh Limestone in the Collection of the Earl of Enniskillen. 38. j. 12 P.
Etheridge, R. Appendix to Paper by C. B. Brown on the Tertiary Deposits on the Solimões and Javary Rivers in Brazil. 35. j. 82.
Hinde, G. J. On Conodonts from the Chazy and Cincinnati Group of the Cambro-Silurian, and from the Hamilton and Genesee-shale Divisions of the Devonian in Canada and the United States. 35. j. 351.
Kirkby, J. W. On the Zones of Marine Fossils in the Calciferous Sandstone series of Fife. 36. j. 559.
Newton, E. T. On two Chimæroid Jaws from the Lower Greensand of New Zealand. 32. j. 326.
——. On the Remains of *Hypsodon*, *Portheus*, and *Ichthyodectes* from British Cretaceous strata, with Descriptions of new Species. 33. j. 505.
——. Description of a New Fish from the Lower Chalk of Dover. 34. j. 439.
——. Remarks on *Saurocephalus* and on the Species which have been referred to that Genus. 34. j. 786.
Traquair, R. H. On the Agassizian Genera *Amblypterus*, *Palæoniscus*, *Gyrolepis*, and *Pygopterus*. 33. j. 548.

7.

Reptilia.

Adams, A. Leith. On Gigantic Land-Tortoises and a small Freshwater Species from the Ossiferous Caverns of Malta, together with a List of their Fossil Fauna; and a note on Chelonian Remains from the Rock-cavities of Gibraltar. 33. j. 177.
Davis, J. W. On a Bone-bed in the Lower Coal-measures, with an Enumeration of the Fish-remains of which it is principally composed. 32. j. 332.
Hulke, J. W. Appendix to "Note on a Modified form of Dinosaurian Ilium, hitherto reputed Scapula." 32. j. 364.
——. Note on two Skulls from the Wealden and Purbeck Formations indicating a new Subgroup of Crocodilia. 34. j. 377.
——. Note on an Os articulare presumably that of *Iguanodon Mantelli*. 34. j. 744.
——. *Vectisaurus valdensis*, a new Wealden Dinosaur. 35. j. 421.
——. Note on *Poikilopleuron Bucklandi* of Eudes Deslongchamps (père), identifying it with *Megalosaurus Bucklandi*. 35. j. 233.
——. Note (3rd) on (*Eucamerotus*, Hulke) *Ornithopsis*, H. G. Seeley, = *Bothriospondylus magnus*, Owen, = *Chondrosteosaurus magnus*, Owen. 35. j. 752.
——. Supplementary note on the Vertebræ of *Ornithopsis*, Seeley, = *Eucamerotus*, Hulke. 36. j. 81.
——. *Iguanodon Prestwichii*, a new Species from the Kimmeridge Clay, distinguished from *I. Mantelli* of the Wealden Formation in the S.E. of England and the Isle of Wight by differences in the shape of the Vertebral centra, by fewer than five Sacral Vertebræ, by the simpler character of its Tooth-serrature, &c., founded on numerous Fossil remains lately discovered at Cumnor, near Oxford. 36. j. 433.
——. Description of some *Iguanodon*-remains indicating a new Species, *I. Seelyi*. 38. j. 135.
——. Note on the Os Pubis and Ischium of *Ornithopsis eucamerotus*. 38. j. 372.
Johnston-Lavis, H. J. On the Triassic Strata which are exposed in the Cliff-sections near Sidmouth, and a Note on the occurrence of an Ossiferous Zone containing Bones of a *Labyrinthodon*. 32. j. 274.

Moore, C. On abnormal Geological Deposits in the Bristol District. 37. j. 67.
Newton, E. T. Notes on a Crocodilian Jaw from the Corallian Rocks of Weymouth. 34. j. 398.
——. Remarks on *Saurocephalus*, and on the Species which have been referred to that Genus. 34. j. 786.
Owen, R. On a new Modification of Dinosaurian Vertebræ. 32. j. 43.
——. Evidence of a Carnivorous Reptile (*Cynodraco major*, Ow.), about the size of a Lion, with Remarks thereon. 32. j. 95.
——. Evidences of Theriodonts in Permian Deposits elsewhere than in South Africa. 32. j. 352.
——. On the Rank and Affinities in the Reptilian Class of Mosasauridæ, Gervais. 33. j. 682.
——. On the Affinities of the Mosasauridæ, Gervais, as exemplified in the bony Structure of the Fore Fin. 34. j. 748.
——. On the Influence of the Advent of a higher Form of Life in Modifying the structure of an older and lower Form. 34. j. 421.
——. On the Association of Dwarf Crocodiles (*Nannosuchus* and *Theriosuchus pusillus*, e. g.) with the Diminutive Mammals of the Purbeck Shales. 35. j. 148.
——. Description of fragmentary Indications of a huge kind of Theriodont Reptile (*Titanosuchus ferox*, Ow.) from Beaufort West, Gouph Tract, Cape of Good Hope. 35. j. 189.
——. On the Endothiodont Reptilia, with Evidence of the Species *Endothiodon uniseries*. 35. j. 557.
——. Description of parts of the Skeleton of an Anomodont Reptile (*Platypodosaurus robustus*, Owen) from the Trias of Graaff Reinet, S. Africa. 36. j. 414.
——. On the Order Theriodontia, with a Description of a new Genus and Species (*Ælurosaurus felinus*, Ow.). 37. j. 261.
——. Description of parts of the Skeleton of an Anomodont Reptile (*Platypodosaurus robustus*, Owen).—Part II. The Pelvis. 37. j. 266.
——. On an extinct Chelonian Reptile (*Notochelys costata*, Owen) from Australia. 38. j. 178.
Prestwich, J. Note on the occurrence of a New Species of *Iguanodon* in a Brick-pit of the Kimmeridge Clay at Cumnor Hurst, three miles W.S.W. of Oxford. 36. j. 430.
Seeley, H. G. On the Posterior portion of a Lower Jaw of *Labyrinthodon* (*L. Lavisi*) from the Trias of Sidmouth. 32. j. 278.
——. On an associated Series of Cervical and Dorsal Vertebræ of *Polyptychodon*, from the Cambridge Upper Greensand. 32. j. 433.
——. On *Crocodilus icenicus* (Seeley), a second and larger Species of Crocodile from the Cambridge Upper Greensand. 32. j. 437.
——. On *Macrurosaurus semnus* (Seeley), a Long-tailed animal with Procœlous Vertebræ from the Cambridge Upper Greensand. 32. j. 440.
——. On remains of *Emys hordwellensis* (Seeley) from the Lower Hordwell Beds in the Hordwell Cliff. 32. j. 445.
——. On *Mauisaurus Gardneri* (Seeley), an Elasmosaurian from the Base of the Gault at Folkestone. 33. j. 541.
——. On the Vertebral Column and Pelvic Bones of *Pliosaurus Evansi* (Seeley), from the Oxford Clay of St. Neott's, in the Woodwardian Museum of the University of Cambridge. 33. j. 716.
——. On New Species of *Procolophon* from the Cape Colony, preserved in Dr. Grierson's Museum, Thornhill, Dumfriesshire, with some remarks on the Affinities of the Genus. 34. j. 797.
——. On the Dinosauria of the Cambridge Greensand. 35. j. 591.
——. On the Evidence that certain Species of *Ichthyosaurus* were Viviparous. 35. j. 104 P.

Seeley, H. G. On *Rhamphocephalus Prestwichii*, Seeley, an Ornithosaurian from the Stonesfield Slate of Kineton. 36. j. 27.
——. Note on *Psephophorus polygonus*, v. Meyer, a new Type of Chelonian Reptile allied to the Leathery Turtle. 36. j. 406.
——. Note on the Cranial Characters of a large Teleosaur from the Whitby Lias, preserved in the Woodwardian Museum of the University of Cambridge, indicating a new Species, *Teleosaurus eucephalus*. 36. j. 627.
——. On the Skull of an *Ichthyosaurus* from the Lias of Whitby, indicating a new Species (*I. Zetlandicus*, Seeley), preserved in the Woodwardian Museum of the University of Cambridge. 36. j. 635.
——. On remains of a small Lizard from the Neocomian Rocks of Comén, near Trieste, preserved in the Geological Museum of the University of Vienna. 37. j. 52.
——. The Reptile Fauna of the Gosau Formation, preserved in the Geological Museum of the University of Vienna. 37. j. 620.
——. On *Neusticosaurus pusillus* (Fraas), an Amphibious Reptile having affinities with the Terrestrial Nothosauria and with the Marine Plesiosauria. 38. j. 350.
——. On a remarkable Dinosaurian Coracoid from the Wealden of Brook in the Isle of Wight, preserved in the Woodwardian Museum of the University of Cambridge, probably referable to *Ornithopsis*. 38. j. 367.
——. On *Thecospondylus Horneri*, a new Dinosaur from the Hastings Sand, indicated by the Sacrum and the Neural Canal of the Sacral Region. 38. j. 457.
Sollas, W. J. A new Species of *Plesiosaurus* (*P. Conybeari*) from the Lower Lias of Charmouth, with Observations on *P. megacephalus*, Stutchbury, and *P. brachycephalus*, Owen. 37. j. 440.
Twelvetrees, W. H. On a new Theriodont Reptile (*Cliorhizodon orenbergensis*, Twelvetr.) from the Upper Permian Cupriferous Sandstones of Kargalinsk, near Orenburg, in South-eastern Russia. 36. j. 540.
Whidborne, Rev. G. F. On the Geographical Distribution of the Genus *Plesiosaurus*. 37. j. 480.

8.

Aves.

Adams, A. Leith. On Gigantic Land-Tortoises, and a small Freshwater Species from the Ossiferous Caverns of Malta, together with a list of their Fossil Fauna; and a Note on Chelonian Remains from the Rock-cavities of Gibraltar. 33. j. 177.
Owen, R. On *Argillornis longipennis*, Ow., a large Bird of flight, from the Eocene Clay of Sheppey. 34. j. 124.
——. On the Skull of *Argillornis longipennis*. 36. j. 23.
Seeley, H. G. On the British Fossil Cretaceous Birds. 32. j. 496.
Sollas, W. J. On some Three-toed Footprints from the Triassic Conglomerate of South Wales. 35. j. 511.

9.

Mammalia.

Adams, A. Leith. On Gigantic Land-Tortoises, and a small Freshwater Species from the Ossiferous Caverns of Malta, together with a list of their Fossil Fauna; and a Note on Chelonian Remains from the Rock-cavities of Gibraltar. 33. j. 177.
——. Observations on the Remains of the Mammoth and other Mammals from Northern Spain. 33. j. 537.

Adams, A. Leith. On the Remains of Mastodon and other Vertebrata of the Miocene Beds of the Maltese Islands. 35. j. 517.
Bettany, G. T. On the Genus *Merycochœrus* (Family Oreodontidæ), with descriptions of two new Species. 32. j. 259.
Bose, P. N. Undescribed Fossil Carnivora from the Sivâlik Hills, in the collection of the British Museum. 36. j. 119.
Calderon, S. On the Fossil Vertebrata hitherto discovered in Spain. 33. j. 124.
Dawkins, W. B. On the Mammalia and traces of Man found in the Robin-Hood Cave (Creswell Crags). 32. j. 245.
——. On the Mammal-fauna of the Caves of Creswell Crags. 33. j. 589.
——. The Exploration of the Ossiferous Deposit at Windy Knoll, Castleton, Derbyshire. 33. j. 724.
——. Contributions to the History of the Deer of the European Miocene and Pliocene Strata. 34. j. 402.
——. On the range of the Mammoth in Space and Time. 35. j. 138.
——. Notes on the Mammalia in the Creswell Caves. 35. j. 724.
——. The Classification of the Tertiary Period by means of the Mammalia. 36. j. 379.
Fisher, Rev. O. On a Mammaliferous Deposit at Barrington, near Cambridge. 35. j. 670.
Flower, W. H. Note on the occurrence of the Remains of *Hyænarctos* in the Red Crag of Suffolk. 33. j. 534.
Howorth, H. H. The Mammoth in Siberia. 35. j. 1 P.
Jones, E. L. On the Exploration of two Caves in the neighbourhood of Tenby. 38. j. 282.
Judd, J. W. On the occurrence of the Remains of a Cetacean in the Lower Oligocene Strata of the Hampshire Basin. 37. j. 708.
Moore, C. On Abnormal Geological Deposits in the Bristol district. 37. j. 67.
Newton, E. T. On the occurrence of the Glutton (*Gulo luscus*, Linn.) in the Forest-bed of Norfolk. 36. j. 99 P.
Owen, R. Description of part of the Femur of *Nototherium Mitchelli*. 38. j. 394.
Poulton, E. B. On Mammalian Remains and Tree-trunks in Quaternary Sands at Reading. 36. j. 296.
Seeley, H. G. Notice of the occurrence of Remains of a British Fossil *Zeuglodon* (*Z. Wanklyni*, Seeley) in the Barton Clay of the Hampshire Coast. 32. j. 428.
——. Note on a Femur and a Humerus of a small Mammal from the Stonesfield Slate. 35. j. 456.
——. Note on the Caudal Vertebra of a Cetacean discovered by Prof. Judd in the Brockenhurst beds, indicative of a new Type allied to *Balænoptera* (*Balænoptera Juddi*). 37. j. 709.
Willett, E. W. & H. Notes on a Mammalian Jaw from the Purbeck beds of Swanage, Dorset. 37. j. 376.

INDEX OF AUTHORS.

The ** indicate that the Author's name will be found in the Alphabetical Lists of the Divisions to which the Letters at the Head and Foot of the Columns in which they appear refer; in Column T the numbers of the Subdivisions are substituted.

A. Recent.
B. Pliocene.
C. Miocene.
D. Eocene.
II. Tertiary.

E. Cretaceous.
F. Wealden.
G. Oolite.
H. Lias.
I. Rhætic & Trias.
III. Secondary.

K. Permian.
L. Carboniferous.
M. Devonian.
N. Silurian, &c.
IV. Palæozoic.

O. Metamorphic.
P. Volcanic.
Q. Plutonic.
R. Physical Geography, Topographical and Practical Geology, and Earthquakes.

S. Mining and Mineralogy.
T. Palæontology.
1. Plantæ; 2. Amorphozoa, &c.; 3. Echinodermata; 4. Articulata; 5. Mollusca; 6. Pisces 7. Reptilia; 8. Aves; 9. Mammalia.
